

PROTECTION SHELL OPTIMUM SLIM TABLET PC - UMPC

The Optimum Protectis® shell is custom made to every tablet model and is suited to all types of mobile professional. Its semi-rigid structure and quick & easy fastening system make it the most efficient permanent protection on the market against all forms of shock. The wide choice of options are designed to aid the users' day to day operation in even the most demanding of environments. >>>

>>> FEATURES

> PERMANENT PROTECTION

The Optimum Slim shell is attached to the tablet and offers an efficient protection despite its reduced thickness.

> REDUCED TCO

This shell considerably reduces devices failure rate.

> VENTILATION

Permanent openings offer continuous ventilation.

> ERGONOMICS

The various options improve the portability of the device for the end users.

> PREVENTIS GUARANTEE

12 month hardware guarantee. If you break your tablet PC in a Mobilis® shell, we pay! (see general conditions and exceptions of the guarantee).
