With ACTIV reinforced protective folio cases, your tablets or hybrid PCs are always fully protected in case of drops and shocks. These protective cases can withstand more than 50 drops from a height of 1.20m, which is twice the requirement of military standard MIL-STD 810-G. They are certified to IK08 standard for resistance to shocks.

Featuring a foldable cover that also serves as a base as well as a neck strap, grip strap and stylus holder, ACTIV PACK protective folio cases offer excellent ergonomics at the office or in a meeting. They are also easy to carry around and suited for semi-nomadic uses.

**REINFORCED PROTECTIVE FOLIO**
**FOR GALAXY TAB A6 10.1’’**
Ref. 051003

**PERIMETRIC BUMPER**
Double integral bumpers on the four sides of the device absorbs lateral and corner shocks both from above and below.

**SHOCK WAVE ABSORBERS**
These TFP 4.0™ pads are adjustable in height and density to cushion and absorber shocks and vibrations proportionally to their intensity. Their specific shape is designed to facilitate dispersion of the impact energy.

\*TFP 4.0  MOBILIS® exclusivity

The new generation of MOBILIS® exclusive anti-shock material
Specifically made to cushion shocks even the most violent, it instantly absorbs up to 90% of impact energy, then disperses it. Thus, no shock wave is transmitted to your device. This new TFP 4.0 generation is reinforced with more microcells, to be more efficient in repeated impact absorption.
