SLED BLUETOOTH ADAPTER

For Zebra RFD40

The ENERGIA MOBILE adaptive sled provides a quick and ergonomic way to attach (and detach) the smartphone to the Zebra RFD40 reader.
It securely holds the device magnetically while ensuring smooth and reliable communication — ideal for mobile environments or applications that require great freedom of movement (inventory, stock management, logistics, etc.).

ENERGIA MOBILE - ZEBRA RFD40 SLED BLUETOOTH ADAPTER

THE KIT

FEATURES

MAGNETIC MOUNTING SLED

The black PVC plate attaches directly to the RFD40. It features a slot designed to hold a magnetic dongle using its 4 strong magnets.

UNIVERSAL COMPATIBILITY WITH ALL MOBILE DEVICES

Thanks to the magnetic dongle your device can be positioned on the mounting plate. The magnetic dongle can be attached directly to your device or to a compatible MOBILIS® protective case.

UNIVERSAL MAGNETIC EFFECTIVE COMPACT

SAMSUNG iPhone Pixel motorola ZEBRA

UNIVERSAL COMPATIBILITY WITH THE MAGNETIC DONGLE

Compatible with all mobile devices (smartphones, HHD), whether used with or without a protective case.

MAGNETIC INTERFACE

The dongle allows quick and secure attachment of the mobile device to the RFD40 by magnetically connecting to the female slot located in the adapter mount.

EASY INSTALLATION

Quick, tool-free installation: the mount easily attaches to the back of the device or its case using 3M VHB adhesive, ensuring long-lasting hold without the need for readjustment.

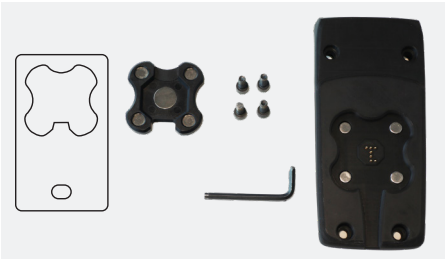
MOUNTING INSTRUCTIONS

CAUTION

Carefully read all instructions and review the visuals before proceeding with installation.



BEFORE YOU START:

Make sure the kit includes all the following items:

- One positioning template
- One adapter plate
- One magnetic dongle
- 4 screws
- One mounting tool

STEP 1 :

Remove the manufacturer's cover from the RFD40

Gently lift the original top cover.
Once removed, set it aside for future use.

STEP 2 :

Align the adapter

Position the adapter plate by aligning its screw holes with those of the Zebra RFD40.
The adapter has been designed to fit the device perfectly, ensuring a secure attachment. Once properly aligned, press gently to snap it into place.

STEP 3 :

Secure the sled with the screws

Use the 4 supplied screws to secure the adapter plate to the RFD40 with the hex key. Make sure the screws do not protrude from the sled.

Caution: Tighten by hand only, without excessive force.

STEP 4 :

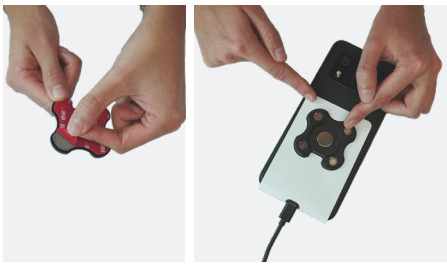
Preparing the magnetic dongle

Place the template to correctly position the dongle on your smartphone. Insert the USB-C cable into the opening at the bottom of the template, and then connect it to your smartphone.

STEP 5 :

Installing the template

Carefully align the template so that it is straight on the back of your smartphone



STEP 6 :

Magnetic dongle attachment

Remove the protective film from the adhesive surface.
Attach the magnetic dongle into the dedicated cutout, making sure it is properly positioned.

STEP 7 :

Drying

Press firmly again on the magnetic dongle to strengthen its adhesion.
The connector is now secured to the back of the device or to a compatible protective case.

Note: Allow at least 72 hours of curing time before use, at room temperature (15°C/30°C).

STEP 8:

Using

Bring the device close to the adapter, aligning the magnets. When the two elements are close enough, the magnetic system activates and completes the attachment.
Once the device is secured to the adapter, establish the Bluetooth connection by following Zebra's recommendations.

IMPORTANT

The assembly instructions are provided for guidance purposes only.

Mobilis® declines all responsibility in the event of incorrect installation or improper use of the product, as well as for any resulting damage.
The steps described here should only be carried out if the environment is suitable and the person in charge of installation has the required technical skills.
It is your responsibility to ensure that this adapter (or the Energia™ mounting system) is installed and used in compliance with applicable regulations, and that it does not compromise the visibility or safe use of the Zebra terminal or any other Mobilis® accessory.

WARNING

Dropping the RFD40 with a phone connected via this plate may damage the equipment. Such damage is not covered by the warranty.
