KEY FEATURES

■ COMPATIBILITÉ NFC*

The short cable (30 mm) exposes the NFC chip located in the centre of the back of the device. USB-C side-mounted compatible.

* NFC (Near Field Communication): enables contactless payments, badge scanning, pairing of accessories, etc.

■ INSTANT CONNECTION

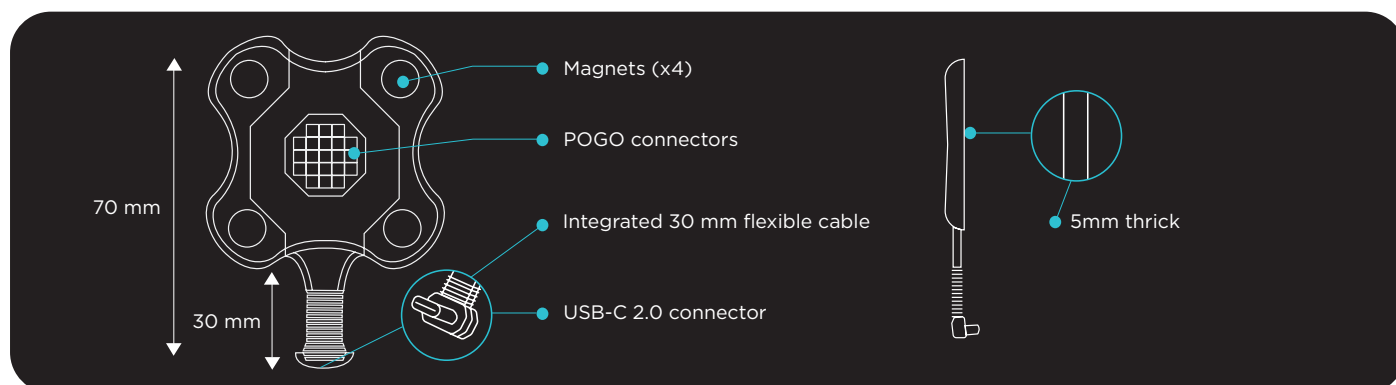

The PogoPin connector enables charging and data transfer without manual plugging.

■ POWERFUL MAGNETIC MOUNT

4 strong magnets ensure a secure hold (up to 3.5 kg of pull force).

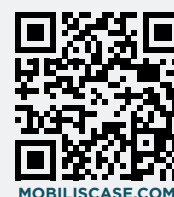

■ 3M ADHESIVE MOUNT

High-strength adhesive for reliable, long-lasting attachment.

USER MANUAL

The Magnetic POGO Pin Dongle shifts your device's USB-C port to a POGO connection. Once installed, it enables charging and data transfer without manual plugging – simply place your device on a compatible mount.

- Instant connection for both charging and data transfer.
- Universal: Compatible with all USB-C devices.

1

Clean and dry the surface before installing the Magnetic POGO Pin Dongle.

2

Insert the connector into your smartphone's USB-C port.

3

Peel off the adhesive backing on the back of the Magnetic POGO Pin Dongle.

4

Press down on the base of the Magnetic POGO Pin Dongle to position and tighten the cable.

5

Apply pressure across the entire surface to firmly attach the Magnetic POGO Pin Dongle to your device.

Note: A minimum bonding time of 72 hours is required before use, at room temperature (15°C to 30°C).

WARNING

**Incorrect
installation**

Cable not tightened

**Correct
installation**

Cable flush and secured
