

With ACTIV reinforced protective folio cases, your tablets or hybrid PCs are always fully protected in case of drops and shocks. These protective cases can withstand more than 50 drops from a height of 1.20m, which is twice the requirement of military standard MIL-STD 810-G. They are certified to IK08 standard for resistance to shocks.

Featuring shoulder strap, grip strap and stylus holder, ACTIV PACK protective folio cases offer excellent ergonomics at the office or in a meeting. They are also easy to carry around and suited for semi-nomadic uses.
