PROTECH reinforced protective cases are cleverly designed to protect your devices efficiently if they happen to be dropped. Several technologies using different materials have been developed to **cushion shocks, absorb the shockwave and disperse the energy of the impact**. The exclusive combination of several protection elements means that PROTECH is highly resistant to falls and drops, in fact, **20 times higher than the requirements of military standard MIL-STD 810G**.

Flexible and light, PROTECH cases fit perfectly like a second skin around the devices they protect and thus take up a minimum of space.

Featuring **user-friendly accessories and carry options** (neck strap, grip strap, stylus holder, base for tablets) PROTECH cases for tablets and input terminals are the ideal combination to safely carry and use your devices.
