### HEXOTEK Air

The first layer of resistance

Adding resistance on impact with the second layer

Using air as a mattress to absorb the shocks, the honeycomb - design micro air pockets now have an extra layer that enables a 2 Step resistance against Kinetic energy generated if you drop your phone.

### IMPACTHANE Anti Bacterial Polymer

Unprotected

Impacthane protected after 2 hours  
Up to 99% microbes killed

### Advanced raised edges

Protect your screen and camera lens

Our ion anti-microbial technology works at a cellular level to continually disrupt the growth and reproduction of micro-organisms. This creates a multi-point attack, damaging the protein, cell membrane, DNA and internal systems of bacteria, and many common viruses.
